

Tangent HTD-50

In many modern homes it is a difficult task to find space for a large pair of speakers. Therefore we took up the challenge and made a compact Hi-Fi speaker worth enjoying in the living room. Don't get us wrong, when we say enjoying we actually mean enjoying – that is what Tangent is all about.

The technical part of the speaker is taken care of by good quality driver units – the tweeter is actually of the expensive neodymium type and the terminals use binding posts for optimum connectivity.

You just sit down and enjoy.

Specifications

System	2 way bass reflex
Long term Max power	50 Watt
Short term Max power	70 Watt
Frequency range	55Hz-20KHz
Sensitivity (2,83V / 1M)	85dB
Impedance	4-8 Ohm
Tweeter	25mm neodymium
Woofer	100mm
Dimensions (HxWxD)	229x150x250mm
Terminal type	Binding post
